

For Immediate Release

Grammy® Award-winner Richard Theisen releases new contemporary instrumental album in the New Age music category

Dallas, Texas (September 6, 2023) – Following in the footsteps of his successful album release, “Elyisium,” in the New Age genre, Grammy® Award-winning composer, Richard Theisen, announces the release of “Estonia,” his third album in the category.

Releasing digitally world-wide on September 1, 2023, “Estonia” is eight tracks of melodic, multi-layered, ethereal, instrumental music brimming with rich shades and hues of Norse mythology. Through the music, the listener is effortlessly transported to the mystical land of Estonia. From flowing rivers to deep, lush forests, listeners are invited to slow down, take some deep breaths, and immerse themselves in the love and beauty that surrounds us all.

Richard says, “I feel a certain kinship to this region of the world and also to the culture of its people. I'm not sure if it's ancient memories from my Germanic descendency or just fantasies, but I feel that I've spent time deep within those magical Nordic forests of Estonia.”

A perfect blend of fantasy and reality, every track on the soothing instrumental album deeply sparks the imagination through its exquisite instrumentation, lush melodies, and masterful harmonies. Listeners are taken to another place and time where one can experience a wonderful and immersive escape from the stresses of daily life.

Born and raised in Dallas, Texas, Richard’s musical abilities were evident from early childhood. As a teenager he founded the renowned rock band, “Daniel,” a popular Texas group that got a single released nationwide on Paramount Records in 1974. In 1985 he was presented with a Grammy® Award for his contribution to the “Beverly Hills Cop” soundtrack LP, and he was inducted into the annual Hall of Fame roster in *Buddy Magazine*.

Throughout the 90s he continued to be a high-in-demand professional pianist, singer, and entertainer. But his true talent has always been his composing acumen. In 2011 he formed Theisen Productions to produce instrumental music for use in television and film. In 2019 he released his first New Age and jazz-influenced album, “Mayan Stars,” to rave reviews. In 2022 he and his Gina, started NRZen, their YouTube channel dedicated to providing spiritual-oriented audio and video productions aimed at raising the vibrational consciousness of the planet.

In January 2023, Richard released his second album of original music, “Elyisium,” which received outstanding reviews and won “Best Album of the Year from “New Age Music Planet.”

Of “Estonia,” Keith “MuzikMan” Hannaleck, New Age Music Reviews founder writes, “On the cusp of fall comes “Estonia,” a gorgeous instrumental production guaranteed to soothe your soul and invite you to a different plane of consciousness.” Indeed.

Richard Theisen is a tremendously gifted artist whose musical creations will continue to be enjoyed by all who hear his aural magic today, tomorrow, and in the years to come. His music is available on all the major streaming services worldwide.
